VITAL STATISTICS.

TWENTY-EIGHTH ANNUAL REPORT

FROM

THE REGISTRAR-GENERAL, ON VITAL STATISTICS.

Printed in accordance with Resolutions of both Houses of Parliament.

SYDNEY: THOMAS RICHARDS, GOVERNMENT PRINTER.

1884.

1883.

VITAL STATISTICS.

THE REGISTRAR-GENERAL TO THE HONORABLE THE COLONIAL SECRETARY,

TRANSMITTING ABSTRACTS OF

MARRIAGES, BIRTHS, AND DEATHS,

FOR THE YEAR 1883:

WITH PREFATORY REPORT.

Sir, Registrar-General's Department, Sydney, 11 June, 1884.
I have the honor to submit the general Abstracts of Marriages, Births, and Deaths, registered in the Colony during the year 1883, with my report thereon.

The population of the Colony at the end of the year 1883 is estimated at 869,310 persons; comprising 480,497 males and 388,813 females, being 55·27 per cent. and 44·73 per cent. respectively. The excess of births over deaths was 19,032 persons.

Arrivals by sea numbered 67,206 persons, and departures in like manner were 34,396 persons, which leaves a balance of 32,810 persons on the side of arrivals. The total increase for the year was 51,842 persons, as against 36,203 persons in the previous year; the difference in favour of the year 1883 being 15,639 persons.

ESTIMATED Population of the Colony of New South Wales on 31st December, 1883.

	Males.	Females.	Total.	Males.	Females.	Total.
Births during the year, ended 31st December, 1883	16,014	15,267	31,281			
Arrivals by sea.....	46,543	20,663	67,206			
				62,557	35,930	98,487
Deaths during same period	7,116	5,133	12,249			
Departures by sea	24,286	10,110	34,396			
				31,402	15,243	46,645
Increase during the year				31,155	20,687	51,842
Estimated Population, 31st December, 1882				449,342	368,126	817,468
Estimated Population, 31st December, 1883				480,497	388,813	869,310

The number of marriages registered in the Colony in the year 1883 was 7,405, being 457 in advance of the previous year. This increase is not so large by 207 as that of the year 1882 over 1881.

There were 31,281 births recorded in the year, as against 29,702 in the previous year, being an increase of 1,579 births.

The total number of deaths registered during the year was 12,249, being less by 567 than the deaths of the previous year.

So far as the records of marriages and births are concerned, I believe very few escape registration; but I fear a number of deaths occur of which no account is taken. My attention has been called to this subject for some years past. I am aware that the Registrars exercise great vigilance to ensure the registration of all deaths, and no doubt with some degree of success. In order to remedy the defects of the present system, I advise that the Registration Act (19 Vic. No. 34) be repealed by the substitution of one which would more effectually carry out the objects for which registration is designed.

(A.)

MARRIAGES.

The decennial table of marriages shows the marriage rate of the Colony for the year 1883 to be 8·80 per 1,000 of estimated population, which is slightly higher than the figures for the previous year. This rate has not been exceeded by any one year in the decade, the average rate of which was 7·92, and this is 0·88 lower than the rate for the year under consideration.

The number of marriages celebrated in Sydney in the year 1883 was 2,039, being an increase of 86 on the preceding year. The rate per 1,000 of estimated population is 0·17 lower; the figures being 17·80 for 1882, and 17·63 for 1883. The average for the ten years is 14·93.

Marriages celebrated in the Suburbs numbered 1,243, as against 1,109 in the previous year. The rate per 1,000 of population is 9·19, which is 0·54 higher than the figures of the previous year. The ten years average stands at 7·35.

In the Country Districts there were 4,123 marriages registered, showing an increase of 237 on the previous year. The rate per 1,000 of population is 6·99, which is about the same as the figures for the previous year, and 0·39 higher than the average of the decade.

* This population is calculated on the basis of the Census taken 3rd April, 1881.

Marriages of
Denominations.

The number of marriages celebrated by each religious denomination and at Registrars' Offices for the year 1883, and their respective percentages to the total number of marriages, will be found to be as follows:—Church of England, 2,949 (39·82); Roman Catholic, 1,414 (19·09); Presbyterian, 950 (12·83); Wesleyan, 712 (9·62); Congregationalist, 565 (7·63); Primitive Methodist, 157 (2·12); Baptist, 101 (1·36); Registrars' Offices, 486 (6·57). These numbers leave 72 marriages, which will be found distributed among certain other denominations named in Table C.

Bachelors,
Spinsters, &c.

Of the total number of persons married in the Colony during the year 1883, we find that 45·88 per cent. were bachelors, 45·79 per cent. were spinsters, 4·04 per cent. widowers, and 4·17 per cent. widows. There were also 11 divorced men and 5 divorced women married.

TABLE of Bachelors, Spinsters, &c.

	No. of Marriages.	Bachelors.	Spinsters.	Widowers.	Widows.	Divorced Men.	Divorced Women.
Sydney	2,039	1,844	1,830	191	206	4	3

Country Districts	4,123	3,798	3,807	321	316	4
	7,405	6,795	6,782	599	618	11	5

From the total number married during the year (14,810), we find 2,289 (15·45) were under the age of twenty-one years. Of the number of minors married, 203, or 8·87 per cent., were males, and 2,006, or 91·13 per cent., were females. There were 110 minors during the year who were unable to sign their names; of these, 9 were males and 101 females.

BIRTHS.

There were 31,281 births registered in the Colony in the year 1883, being 1,579 in excess of the births of the previous year. Male births numbered 16,014, and female 15,267, being 51·19 and 48·81 per cent. respectively. The year's birth-rate of the Colony per 1,000 of estimated population was 37·21. This is slightly lower than that for the previous year, and also under the rate of any year (except one) in the decade, the average rate of the decade being 37·68. The rate for Sydney was 32·48, which is 1·74 lower than that for the previous year, and 2·09 under the average rate of the decade. The Suburban birth-rate was 48·34, which is 2·51 in advance of the previous year's rate, and with but one exception the highest of the decade, the average of which is 43·70. In the Country Districts we find the rate to be 35·58, being a shade lower than that for the preceding year, and also lower than any year of the decade, the average of which is 37·01.

Table D, immediately following, shows the number of births registered in the Colony during each quarter of the decade, and the same information is given as regards Sydney, Suburbs, and Country Districts.

DEATHS.

During the year 1883 there were 12,249 deaths recorded in the Colony. Male deaths numbered 7,116 and female deaths 5,133, being 58·09 and 41·91 per cent. respectively. The death-rate for the year is 14·57, which is 1·50 under the rate of the previous year, and lower than any one year of the decade. It is also 1·16 under the average rate of the decade. The city records show 2,233 deaths, consisting of 55·80 per cent of males and 44·20 per cent. of females. The rate per 1,000 of estimated population is 19·30.

This

This is lower than the rate of the previous year by 3·72, and also 3·98 under the average rate of the decade. The death-rate of the City is raised from deaths which occur in the Hospitals, Asylums, &c. These deaths formed 22 per cent. of the total deaths of the City. The mortality of the Suburbs is shown by the registration of 2,715 deaths, which amounts to 20·08 of estimated population. These figures are in excess of the rate for the previous year by 0·61, but a little under the average of the last ten years. In the Country Districts there were 7,301 deaths registered, which makes the rate per 1,000 of population to be 12·38. This is 1·55 lower than the rate of the previous year, and 1·06 under the figures of the ten years' average.

(G.)

Infantile
mortality

The total number of deaths registered in the Colony of children under the age of 5 years was 5,304. As compared with these deaths in the previous year, we find a decrease of 148. The percentage of these deaths to the total number of deaths is 43·30. Though there is an actual decrease in the number as compared with the previous year, there is an increase of 0·76 on the percentage of that year. The average percentage of infantile mortality of the decade is 43·49, which is higher by 0·19 than the figures for the year under review. The percentage of these deaths registered in Sydney to total deaths is 42·09, which is 2·88 higher than the previous year, but slightly lower than the average of the ten years.

There

There were 1,455 deaths of children under 5 years of age registered in the Suburbs during the year. As compared with the total number of deaths registered, we have a percentage of 53·59. This is the lowest of any year in the decade, and 0·67 under the figures of the previous year, and also 1·60 lower than the average percentage of the decade. The percentage of these deaths registered in the Country Districts was 39·84, being nearly the same as the previous year's figures, and 0·72 lower than the average percentage of the decade.

* Waterloo was not created a separate Registry District till January, 1872; Randwick a Sub-district of Paddington in September, 1872; and Waverley, Sub-district of Paddington, 1st August, 1876; Woollahra, a Sub-district of Paddington, 1st August, 1878; Manly, a Sub-district of St. Leonards, 1st July; Leichhardt, a Sub-district of Balmain, 1st July, 1882. † By Census of 1881, Concord was included in the Electoral District of Canterbury, and St. George in that of Petersham.

The following figures show the number of deaths during the year 1883, resulting in the several undermentioned classes :—

	No. of deaths.	Percentage to total deaths.
Zymotic Diseases...	2,323	18·96
Constitutional do ...	1,668	13·62
Local do ...	4,912	40·08
Developmental do ...	2,415	19·73
Violent do ...	850	6·95
Unspecified or undefined ...	81	0·66

The principal causes of death under the *Zymotic Class* of diseases during the year 1883 were as follows :—Measles, 47 ; Scarlatina, 46 ; Diphtheria, 235 ; of this number, 140 were cases of children under 5 years of age. Croup, 220 ; Whooping Cough, 52 ; Typhus and Infantile Fever, 397 ; Influenza, 40 ; Dysentery, 100 ; Diarrhoea, 670 ; Cholera, 80 ; Rheumatism, 59 ; Syphilis, 28 ; Want of Breast Milk, 48 ; Alcoholism, 81 ; Delirium Tremens, 13 ; Thrush, 37. Comparing the number of deaths registered under this class with the previous year's records, we find a decrease of 293.

Under the *Constitutional Class* we find 1,668 deaths recorded. Phthisis heads the list with 941 cases ; next in order comes Cancer, with 215 cases ; then Tabes Mesenterica, numbering 189, and Dropsy, 143. There is an increase of 32 in this class on the previous year's figures.

The *Local Class* of diseases shows a total of 4,912 deaths. The principal causes being as follows :—Cephalitis, 213 ; Apoplexy, 235 ; Paralysis, 155 ; Epilepsy, 92 ; Convulsions, 690 ; Brain Disease, &c., 176 ; Heart Disease, 583 ; Bronchitis, 620 ; Pneumonia, 617 ; Congestion of Lungs (Pulmonary), 121 ; Gastritis, 168 ; Enteritis, 293 ; Peritonitis, 87 ; Hepatitis, 54 ; Liver Disease, &c., 132 ; Nephria, 101. The total deaths in this class are 270 in excess of those for the previous year.

The number of deaths recorded under the *Developmental Class* is 2,415, which is a few in excess of the previous year's figures. Premature Birth and Teething are credited with 315 and 247 respectively ; Atrophy and Debility, 832, of which 721 are deaths of children under 1 year. Old age numbers 868 deaths, of which 186 were from 70 to 75 years of age, and 483 from 75 years and upwards.

Under the class of *Violence* there were 850 deaths during the year. The number of deaths from accident or negligence were as follows :—Fractures and Contusions, 310 ; Wounds, Gunshot and Cuts, 39 ; Burns and Scalds, 85 ; Sunstroke, 21 ; Poison, 44 ; Drowning, 213 ; Suffocation, 35 ; Snake or Insect Bite, 4.

Homicide shows 17 cases, viz. :—Murder, 9 ; Manslaughter, 8. There were 54 *Suicides*, from the following causes :—Wounds, 22 ; Poison, 6 ; Drowning, 2 ; Hanging, 15. Violent deaths (not classified) in which open verdicts were given, 15.

Table K shows the percentage of deaths to total deaths for the last ten years under the different orders in each class of diseases.
